

# Thiago D'Alessandro

## Full Stack Web Developer

I regard myself as a results-oriented person, who is always seeking knowledge and challenging professional experiences. Passionate about programming, languages and having big demanding tasks on my to-do list. I am looking forward to be part of a team that allows me to develop my abilities and gain experience in the IT area.

## PROJECTS

Henry's Individual Project - Videogames (02/2022 - 02/2022)

- Development of a SPA ( Single Page Application ) using React for the Front End and Redux as a state management. The design of all the components was developed with CSS without any foreign libraries. The SPA consume data from an API ('RAWG') through the Back End developed in Node.js using Express.js, adding new functions to the original API.
- Technologies used: ReactJs - Redux - NodeJs - Express - PostgreSQL - Sequelize - JavaScript - CSS
- <https://github.com/Thdalessa/Videogames-PI>

Rental App (03/2022 - 04/2022)

- Development of a SPA for HENRY's Bootcamp Final Project. The app core function is to rent properties with tourist purpose and is destined to users who wish to travel and rent houses along their journey and also for users that wish to offer hosting services.
- Technologies used: ReactJs - Redux - NodeJs - Express - PostgreSQL - Sequelize - JavaScript - CSS - StyledComponents - MaterialUI
